

Lab Performance - Compensation Report

(ONLY FOR THE ABSENT STUDENT)

Instructor:-

Muhammad Asif Hasan

E: sasifhasan@hotmail.com

School of Electrical Engineering and Computer Sciences
(SEECs)

H-12 Campus, National University of Sciences and
Technology (NUST)

Rules & Regulations

- This needs to be a **handwritten report on paper** and not a computer generated report
- This report needs to be submitted **within one week** after the lab in which you were absent
- Submit whenever you like, **in this one week time**, by coming to my office or before lab starts...after which it will **not be entertained**
- Lab results which are generated through computer e.g. waveforms, graphs, data tables etc **can be** in printed hardcopy form and attached with report
- If your report is **satisfactory**, you will get the **same** lab performance marks as of your group members, so this is the **maximum** that you can get
- Don't forget to write your **name, roll number and other group member names** so that I can add your marks with the right group in system

Format of Report

1. Lab Theory

All the relevant lab theory should be explained in the first part of the report. You can use theory from lab handout, course books, internet or any other reference source you can get.

2. Experiment Procedure & Results

In this part you need to write down the procedure of experiments which are written on lab handout and from your own knowledge. You also need to write down and attach results which you can take from your group members or from my solution, if provided.

3. Conclusion

Give conclusion passages regarding the experiment you performed in this final part.
